Work experience

Web developer

Grambashi Kollayn Somity | chittagomg

April 2023 to April 2024

- **Full-Stack Website Development:** Collaborated in a 3-person development team to design, build, and deploy a custom web platform tailored for real estate operations and property listings.
- **Accounting System Integration:** Developed and maintained core web functionality to handle internal accounting activities, streamlining financial tracking and record-keeping for the organization.
- **Ongoing Platform Maintenance:** Managed site updates, resolved technical issues, and ensured consistent uptime, security, and data accuracy across the platform.
- **Team Collaboration & Technical Execution:** Worked closely with team members using version control and best development practices to deliver features on schedule.
